## Politics, Weather and Crops in the "Show Me" State.

GUILFORD, Mo., June 18.—Enclosed find draft for \$2 for my arrears and continue my subscription as far as it will. I should have remitted sooner but neglected it. I see that you have Powers and Howard running at large again. It is to be hoped that they are innocent of the crime charged against them; but somebody is guilty and should suffer the penalty. I presume the G. O. P. are having a hot old time in Chicago just now. The anti-Taft delegates, I see, especially in the South, have to take a back seat. Of course the bosses know that there is nothing there for them in November. If it wasn't so those other fellows would have received some recognition, for doubtless they were not in the wrong altogether.

Well, there is no question but that it will be Billy T. at Chicago and it is just as certain to be Billy B. at Denver. There is a saying that Missourians have to be shown. But Missouri is going to show the rest of the States that she will give Bryan from 30,000 to 50,000 over Taft and will insist that Kentucky do at least half that well.

Now a few words in regard to our crops. We are in the water; have been raining here for nearly a month, from two to five days in a week. We have been able to plow only about one day and a half in that time and then the ground was too wet to work well. We have three rivers running through our county, the Platt, One Hundred and Two and the Nodaway. Crops on all the lowlands are ruined. Some of them will be planted again if it gets dry this month.

For the information of my friends in old Lincoln, will say that this leaves my family and self well. Respectfully,  
C. D. HOCKER.

## NEWS NOTES.

The bubonic plague at Guayaquil is declining.

Russell Evans, the 10-year-old son of Albert Evans, of Bourbon county, was stung almost to death by a swarm of bees, which had settled upon the limb of a tree and was precipitated upon the boy's head by the limb breaking.

A newspaper with 1,000 subscribers has 5,000 readers. A merchant who puts out 1,000 handbills possibly gets 400 people to read them, that is if the boy who distributes them doesn't chuck them under the sidewalk. The handbills cost as much as a column advertisement in the home paper. All the women and girls and most of the men and boys read the home paper and the advertisements. Result—the merchant who uses the paper has 5,000 or more readers to each 1,000 of the hand-bill readers. There is no estimating the amount of business that advertising brings to a merchant, but the right kind of newspaper advertising always brings results.—Somerset Journal.

"Health Coffee" is really the closest Coffee Imitation ever yet produced. This clever Coffee Substitute was recently produced by Dr. Shoon, Racine, Wis. Not a grain of real Coffee in it either. Dr. Shoon's Health Coffee is made from pure toasted grains, with malt, nuts, etc. Really it would fool an expert—who might drink it for Coffee. No 20 or 30 minutes tedious boiling. "Made in a minute" says the doctor. Sold by Penny's Drug Store.

Collier, Lyon Bros., and every business house is doing a lively work, and peace and prosperity with good will toward all prevails. We even have circuses here without the sound of a pistol shot and not a staggering man to be seen.

## Roosevelt on Taft.

Immediately upon receiving the news of the nomination of Taft for the Presidency, President Roosevelt said:

"I feel the country indeed is to be congratulated upon the nomination of Taft. I have known him intimately for many years and I have a peculiar feeling for him because throughout the time we have worked for the same object, with the same purposes and ideals. I do not believe there could be found in all the country a man so well fitted to be President. He is not only absolutely fearless, absolutely disinterested and upright, but he has the widest acquaintance with the nation's needs without and within and the broadest sympathies with all our citizens. He would be as emphatically the President of the plain people as was Lincoln himself, yet not Lincoln himself would be freer from the least taint of demagoguery, the least tendency to arouse or appeal to class hatred of any kind. He has a peculiar and intimate knowledge of, and sympathy with, the needs of the people, of the farmer, the wage earner, the business man and the property owner. No matter what a man's occupation or position, no matter what his creed, his color, or the section of the country from which he comes, if he is an honest, hard-working man who tries to do his duty towards his neighbor and towards his country, he can rest assured he will have in Taft a most upright representative and a most fearless champion. Taft stands against the privilege and stands pre-eminently for the broad principles of American citizenship, which lies at the foundation of National well-being."

Governor General Smith, of the Philippines, has cabled a report to the Bureau of Insular Affairs regarding the closing of the first session of the Philippine Assembly, and declaring that no resolution of any kind was adopted "to send any petition whatever to Congress or to make demand for independence."

## Arthur Goebel Calls Halt Against Parole for Youtsey.

Arthur Goebel, brother of William Goebel, in a letter to W. P. Walton, editor of the State Journal, vigorously protests against any movement looking to the parole of Henry Youtsey, now that Gov. Willson has pardoned Caleb Powers and Jim Howard. Mr. Goebel expresses his deep feeling in the matter very plainly, his letter reading as follows:

Cincinnati, O., June 15, 1908.—W. P. Walton, Esq., Kentucky State Journal, Frankfort, Ky.—Dear Sir: I note in your issue of the 14th that you say some people think the Prison Commission ought to parole Youtsey. I feel that this is not really meant and I ask you in your just resentment not to go to an opposite extreme and indorse such a sentiment. The fact that two of the assassins have been pardoned and have thus had their legal punishment ended is no reason whatever that any other of the assassins in or out of prison should be pardoned.

I believe you will agree with me that from the standpoint of legal justice and the rights of the Commonwealth not to mention the rights of the kin of Wm. Goebel, there is absolutely no reason why Youtsey should be pardoned or paroled, but on the contrary every reason that he should be punished to the full extent of the penalty the law has inflicted upon him.

Remember that Youtsey did not turn State's evidence until after he was convicted and remember also that the Commonwealth never requested him in any manner to turn State's evidence, but that he voluntarily did so, as he stated, as a matter of conscience. According to the evidence adduced against Youtsey in his trial, he is guilty and should be punished. According to his own confession he is as guilty as the man that fired the shot and should be punished.

I hope that neither you nor any other friend of William Goebel will ever lend approval to a petition for a pardon or a parole for any of the assassins of William Goebel—Youtsey or anybody else. From the beginning the Republican party as a party has approved the assassination and defended the assassins of William Goebel and it has now placed its official stamp of approval upon the act.

If any of the assassins ought to be pardoned or paroled they should be pardoned or paroled by the Republican party, for the Democratic party, through its representatives, to either pardon or parole any of the assassins of William Goebel after conviction would constitute a Democratic approval of the Republican defense of the assassination, and the Republicans would say: "You Democrats paroled or pardoned one of the convicted assassins and why, therefore, should we Republicans not have pardoned two others of the convicted assassins and also pardon the rest not convicted?"

Kentucky is the most murderous State in the Union. According to the latest publications on criminology, Kentucky is the most murderous community in the civilized world except Mexico. The abuse of the power of pardon and parole, the use of said power as a political asset to be traded off for votes, is what has largely made Kentucky so. It would be a blessing to Kentucky if the right of pardon and parole were absolutely done away with for the next quarter of a century.

The drama of the assassination of William Goebel is not ended. I do not want to see Youtsey or any other of the assassins pardoned or paroled, and I beg you to oppose at all times any such proposal. Very respectfully yours,  
ARTHUR GOEBEL.

## Thinks It Saved His Life.

Lester M. Nelson, of Naples, Maine, says in a recent letter: "I have used Dr. King's New Discovery many years, for coughs and colds, and I think it saved my life. I have found it a reliable remedy for throat and lung complaints, and would no more be without a bottle than I would be without food." For nearly 40 years New Discovery has stood at the head of throat and lung remedies. As a preventive of pneumonia, and healer of weak lungs it has no equal. Sold under guarantee at Penny's Drug Store. 50c. and \$1. Trial bottle free.

He lived in this section for several years and by his upright life and square dealing won the respect and confidence of all who knew him. One daughter, who lived with him, and one son, Wesley Hughes, living near here, and a substantial, good citizen, survive him. His remains were brought here and laid away in our cemetery beside his wife, who preceded him several years. An honest man has gone to his reward.

## A Grand Family Medicine.

"It gives me pleasure to speak a good word for Electric Bitters," writes Mr. Frank Conlan of No. 436 Houston St., New York. Electric Bitters regulate the digestive functions, purify the blood, and impart renewed vigor and vitality to the weak and debilitated of both sexes. Sold under guarantee at Penny's Drug Store. 50c.
